Rains in Western Grain Fields Improve Crop Outlook in That Quarter—Bonds Firm.

NEW YORK, May 13.—The largest part of the transactions in stocks today was made in a handful of selected securities, the reasons for the choice of which were obscure as far as any authentic news was concerned. The anthracite group among the railroads was the favorite subject of these rumors. The speculation persisted that something was about to occur which would prove of value to the stockholders. The special attention given to Delaware and Hudson, operating a rumor that it was to figure in a particular way. The speculative sentiment was tinged more or less with suspicion by evidences of inconsistency in the explanations of some of the market movements. An upward start in the Southern Railway stocks was unexplained by any special news. This movement, coupled with that in Rock Island, gave an appearance of favor for the low-priced stocks. The Hartmans started upward, but met selling pressure again, such as has been in evidence in those stocks for some time past. The news with most substantial bearing on the market was the report that the Western grain fields, where abundant rains were reported with greatly increased promise for the rapid progress of the crops. The time money market was quiet, but a slight rise in rates, without any quotable change in rates. Prices gave way at the end of the day and closed weak. Bonds were firm; total sales, par value, \$5,912,000. United States bonds were unchanged on call.

The total sales of stocks to-day amounted to \$65,500 shares.
